Profile

Web Developer with experience delivering high-quality web solutions under tight deadlines for exceptional client satisfaction. Fosters collaborative, productive working relationships to drive project success. Proactive and motivated with a flexible approach to provide responsive team support.

Experience

Web Developer | www.holistiquepublichealth.com

April 2025- present

- Developed a web application using Laravel, a popular PHP framework, which included:
- -CRUD Functionality: Implemented Create, Read, Update, and Delete operations to manage data within the application.
- -Authentication: Designed and implemented a secure authentication system, allowing users to register, log in, and access authorized areas.
- Dashboard: Created a user-friendly dashboard that provides an overview of key metrics and controls for managing various aspects of the application, such as:
 - Blog management (creating, editing, and publishing blog posts)
 - User management (managing user accounts, roles, and permissions)
 - Content management (managing various types of content, such as articles, news, or events)

Freelance Web Developer

August 2023- present

- Developed scalable and efficient web applications using JavaScript, React, and Next.js, with a focus on performance and user experience.
- Utilized modern frontend frameworks and libraries, including Tailwind CSS, to build responsive and visually appealing web applications.
- Designed and developed robust backend APIs using Laravel and Firebase, ensuring seamless data integration and security.
- Implemented TypeScript to ensure type safety and maintainable

codebases.

- Configured and customized WordPress installations, including theme development and plugin integration, to meet clients' needs and expectations.
- Collaborated with clients to understand project requirements and deliver high-quality solutions on time and on budget.

Web Designer at www.salemedinburgh.com

February 2024 - February 2025,

- Designed and developed visually appealing WordPress websites using existing themes, with a focus on user experience and responsiveness.
- Utilized Elementor page builder to create custom layouts, content, and designs that meet clients' needs and expectations.
- Conducted thorough testing and debugging to ensure seamless functionality and user experience.
- Created captivating content, including videos and designs, for social media platforms and websites, and stayed up-to-date with the latest WordPress trends, best practices, and technologies.

Front-End Developer at www.Kdi.org.ng

KImpact Development Initiative | www.Kdi.org.ng

January 2023 - June 2023

- Designed visually stunning and user-friendly web applications, crafting intuitive UI/UX experiences that drove engagement and conversion.
- Developed responsive and scalable web applications using HTML, CSS, JavaScript, and modern frontend frameworks like React.
- Collaborated with cross-functional teams to translate designs into functional and visually appealing web applications.
- Ensured seamless user experiences through cross-browser compatibility testing, performance optimization, and rigorous quality assurance.

Web Developer/Tutor

January 2019- February 2021

- Backend Development: Design and develop scalable website backends using PHP, SQL, and MySQL.
- Tutoring: Teach PHP programming language to students, guiding them through hands-on projects and real-world applications.
- Website Maintenance: Refine and optimize existing websites, ensuring

seamless performance, security, and user experience.
